

Occupational risk Prevention Policy

- 1º The life, physical integrity and health of workers are rights whose protection must be a constant of the daily chores for all those who work in LITEYCA, S.L. and especially those who, in one or another level and in one job or another, they exercise command functions.
- 2º Because we believe that people are the most important asset of our company, this Direction wants to establish a preventive policy that goes towards a model of scientific prevention, Integral, Integrated and participatory.
- 3º Based on the principle that all accidents, incidents and occupational illnesses can and should be the company is committed to achieving a high level of safety and health at work, not limited only to comply with current legislation in the matter, but by carrying out actions that raise the degree of protection of workers marked by law if necessary. This commitment will be expressed in a manifest way and will be one of the key points marked in the general policy of the Company.
- 4º The command line will assume and enhance the integration of security in the production process, establishing as a basic principle that the best productivity is achieved with the greatest security, because you should not forget that the conservation of material and human resources constitutes a fundamental element in order to reduce the costs.
- 5º In order to promote safe conduct in the activities carried out, workers will be provided with all the information about the risks inherent in your work, as well as the necessary training on the means and measures to be taken for their proper prevention.
- 6º In the same way, the participation of all the workers will be promoted in the questions related to the prevention of risks at work, because they are the ones who know more deeply the details of the tasks they perform, and therefore are the most indicated to provide ideas on the safest way to carry them out.
- 7º To achieve an effective implementation of the policy of prevention of occupational risks in the company, will be allocated the necessary resources and the appropriate planning of the use thereof.

Finally, it is the firm commitment of this company to integrate prevention into the organizational structure of the in order to ensure that prevention is not alien to the organization of the pretending thus more than the mere fulfillment of certain character requirements basically documentary.
